

Fire Extinguisher

Foam Extinguisher

Description:

Foam spray extinguishers, (AFFF-Aqueous Film Forming Foam), are ideal for multi-risk solutions where Class A combustible materials and Class B flammable liquid risk are likely to be found, or where class B risks represent a direct hazard. Foam spray extinguishers are especially suitable for class B fires involving flammable liquid such as oils, spirits, fats and certain plastics. The blanketing effects of foam spray give a rapid knock down which smothers the flame and prevents re-ignition of flammable vapours by sealing the surface of the solution.

Features:

- Easy to handle
- Controlled discharge
- Effective spray application
- Fully BS-EN3:7+8 approved
- Pressure gauge
- Quality lining

Benefits:

- Reliability
- Easy to service and maintain

Technical data

Model	Capacity	Type	Fire rating	Weight of charged exting.	Working press-	Dis. Time	Temp. range	"Dims.HXLXD(mm)"
FK-F-6	6litre	Stored pressure	21A/183B	9.5kg	12bar	40sec	0 °C ~60 °C	520HX160D
FK-F-9	9litre	Stored pressure	27A/233B	13.5kg	12bar	66sec	0 °C ~60 °C	560HX185D
